

Asbestos & Demolition Service Providers

A Message from the Spokane Regional Clean Air Agency

Spokane Clean Air receives frequent requests for names of companies that conduct asbestos surveys, asbestos abatement/removal, asbestos training and demolition work. Below is a list of companies that provide one or more of these services in Spokane County. Additions are made by request. Spokane Clean Air does not recommend companies that may or may not appear on this list. It is up to you to research a

company's credentials prior to hiring them. Information and resources related to this is provided on the back of this page.

On the back is a list of accredited laboratories in Washington that analyze building materials for asbestos. There is also a listing of supply companies that sell products used for asbestos and disposal, such as protective clothing, disposal bags, tape, warning signage, etc.

Asbestos & Demolition Service Providers

Research a company's credentials prior to hiring them.

The Washington State Department of Labor and Industries (L&I) has a publication titled *Hiring a Contractor or Remodeler? What You Should Know*, which has pertinent information you should review.

Spokane Clean Air has a link to the publication at www.spokanecleanair.org/asbestos_publications.asp. It can also be found by searching publications at www.lni.wa.gov.

If you're hiring someone to perform an asbestos survey and/or remove asbestos, be sure to read *Need an Asbestos Survey?* and *Need Asbestos Removed?* fact sheets which are available by contacting Spokane Clean Air.

Spokane Clean Air recently added a new searchable database of violation/penalty histories. If you'd like to review a company's history regarding enforcement by Spokane Clean Air, go to www.spokanecleanair.org/penalty_history.asp.

In general, be wary of inspectors or contractors who:

- ◆ Offer a special price only if you sign today or use other high pressure sales techniques
- ◆ Accept only cash and/or require large deposits
- ◆ Don't provide a written estimate or provide an estimate that is incomplete
- ◆ Want to do most of their work on weekends, after-hours
- ◆ Give you an offer that sounds too good to be true

Accredited* laboratories in Washington state that conduct asbestos analysis
