

ARTICLE X

FEES AND CHARGES

ADOPTED: September 12, 1991

REVISED: July 3, 2008

EFFECTIVE: August 7, 2008

SECTION 10.01 DEFINITIONS

Unless a different meaning is clearly required by context, words and phrases used in this article shall have the following meaning:

- A. Emission Fee means the component of a registration fee or operating permit fee, which is based on total actual annual emissions of criteria and toxic air pollutants, except as provided in Section 10.02.B. In the case of a new or modified source or a source being registered initially, the emission fee is based on projected emissions as presented in an approved Notice of Construction or registration form.
- B. Registration Period means the calendar year for which an annual fee has been assessed pursuant to Section 10.06.B.1.

SECTION 10.02 FEES AND CHARGES REQUIRED

- A. Registration information not submitted within 45 days pursuant to Section 4.02.

If registration information is submitted after 45 days, a processing fee of \$100 shall be added to the registration fee invoice.

- B. Method of calculating registration fees in Section 10.06 when registration information required in Section 4.02 is not submitted within 90 days.

Any owner, operator, or designated agent that fails to submit registration information to the Authority within 90 days of the registration information request issue date or prior to the registration fee invoice date, whichever is later, shall be assumed to be operating at the source's maximum potential production rate and the registration fee specified in Section 10.06 will be assessed on that basis.

- C. Additional fee for failure to pay any fee within 90 days of assessment.

Any fee assessed pursuant to Article X shall be paid within 45 days of assessment. Any person who is more than 45 days late (i.e., more than 90 days from assessment) with such payment shall pay an additional fee equal to three times the amount of the original fee owed.

- D. Revenues collected pursuant to RCW 70.94.161.

Revenues collected pursuant to RCW 70.94.161 shall be deposited in the operating permit program dedicated account and shall be used exclusively for the program.

SECTION 10.03 FEES OTHERWISE PROVIDED

- A. All fees and charges provided for in this Article X are in addition to fees otherwise provided for or required to be paid by Regulation I, PROVIDED the Control Officer shall waive payment of any fee or service charge hereby required if the Control Officer determines that such fee is duplicative of a fee charged or required to be paid by another Article of this Regulation.

SECTION 10.04 FEE WAIVER

- A. Except for air operating permit sources, the Control Officer may waive payment of all, or a portion, of any fee or service charge required by this Article upon a showing deemed sufficient by the Control Officer that payment of the fee would cause financial hardship upon the applicant.
- B. The Control Officer may identify categories of sources, or groups of sources within a category, in Section 10.04.C. with similar emissions units and processes where the Control Officer determines that any of the following conditions exist:
1. Facility-wide emission rates are less than 1 ton per year of air contaminants; or
 2. There are no specific regulations on the control of air contaminants; or
 3. Compliance with control requirements is readily accomplished through nontechnical self-inspection techniques; or
 4. The primary purpose for registration, pursuant to Article IV, is to inventory air contaminant emissions.

As categories are so identified, the Control Officer may waive one-half of the annual registration fee for owners or operators of individual facilities who provide emission inventory data, and other required information relative to compliance with applicable regulations, within 30 days of the request by the Authority, in a format acceptable to the Authority. In so doing, the owner or operator shall certify to the best of his/her knowledge, on forms provided by the Authority, that the emission inventory data is accurate and the facility is in compliance with applicable regulations. Owners or operators who fail to return the information within 30 days of the request will not qualify for a fee waiver under this Section. Notwithstanding the provision of required data by the owner or operator, the Authority reserves the right to conduct inspections of the facility.

- C. The following categories of sources are eligible for the fee waiver specified in Section 10.04.B. However, individual sources are not eligible if one or more Notices of Violation have been issued by the Authority, pursuant to Section 2.04 of this Regulation, to the facility in the previous 36-month period:

<u>Source Category</u>	<u>Rating</u>
Surface Coating Operations	<1 ton/yr VOC emitted

SECTION 10.05 GENERAL ADMINISTRATIVE FEES

- A. A fee of \$0.15 per page for photocopies shall be charged.
- B. The actual cost of postage shall be charged for all material requested to be mailed.
- C. For other administrative services requested and performed by Authority staff, which are not provided to the public generally, the Control Officer shall determine such charge as reasonably reimburses the Authority for time and materials expended in providing the service.

SECTION 10.06 REGISTRATION AND OPERATING PERMIT FEES FOR AIR CONTAMINANT SOURCES

- A. Each source required by Article IV, Section 4.01 to be registered, each air operating permit source, and each source required by Article V, Section 5.02 to obtain an approved Notice of Construction and Application for Approval is subject to an annual fee for each calendar year, or portion of each calendar year, during which it operates. The owner or operator shall pay the fee, pursuant to the requirements in Section 10.02. Fees received pursuant to the registration program or the operating permit program shall not exceed the actual costs of program administration.
- B. The annual fee for each source required by Article IV, Section 4.01 to be registered and that is not subject to Section 10.06.C. of this Regulation shall be determined by adding all of the applicable fees below;

SRCAA staff time spent processing and reviewing WEDS will be tracked in 15 minute increments and charged at the hourly rates provided above.
2. The Board shall periodically review the fee schedule for registered sources and determine if the total projected fee revenue to be collected pursuant to this Section is sufficient to fully recover program costs. Any proposed fee revisions shall include opportunity for public review and comment. Accordingly, the Agency shall account for program costs, including employee costs and overhead. If the Board determines that the total projected fee revenue is either significantly excessive or deficient for this purpose, then the Board shall amend the fee schedule to more accurately recover program costs.

H_T is the total number of hours SRCAA staff spent on the AOP program, including total time spent on the AOP sources and general hours spent on the AOP program.

Note: H_I, H_G, H_T, and RPC are for the most recent SRCAA fiscal year.

Note: H_I, H_G, and H_T are obtained from SRCAA time accounting records.

- d. AOP Program Cost Correction, as determined by the following formula:

 - b. Toxics Review Fee

For any new source of air pollution which requires review pursuant to Chapter 173-460 WAC, a toxic air pollutant review fee shall be paid. For sources with one or more emission points under one NOC application, as allowed in Section 5.02.G, a separate toxic air pollutant review fee applies to each emissions unit, or each group of like-kind emissions units, being installed or modified. A group of emissions units shall be considered as like-kind if the same set of emission calculations can be used to characterize emissions from each of the emissions units. The toxic air pollutant review fee shall be as follows:

 - 1) Small Quantity Emission Rate (SQER)

For a new source using WAC 173-460-080(2)(e), SQER, to demonstrate that ambient impacts are sufficiently low to protect human health and safety, as required WAC 173-460-070 & WAC 173-460, the applicant shall pay a SQER review fee pursuant to the fee schedule.

e. Best Available Control Technology (BACT) Review Fee

1) Generic BACT

Where no BACT review is required (e.g., the applicant demonstrates there is an established and/or recognized BACT standard for the source category type), a BACT review fee is not applicable.

2) Non-Generic BACT Review

A non-generic BACT review is one where a generic BACT standard is not applicable and a top-down BACT review is not required. Applicants of any new air pollution source subject to a non-generic BACT review shall pay a non-generic BACT review fee according to the fee schedule.

3) Top-Down BACT Review (as described in EPA's Draft New Source Review Workshop Manual from October 1990 and as summarized below)

A top-down BACT review is one that requires available control technologies be ranked in descending order of control effectiveness. The most stringent or "top" control technology is first examined. That control technology is established as BACT unless the applicant demonstrates, and the Agency concurs, that technical considerations, energy, environmental, or economic impacts justify a conclusion that the most stringent technology is not achievable in for the project being proposed. If the most stringent control technology is eliminated in this fashion, the next most stringent control technology is considered, and so on. Applicants of any new air pollution source subject to a top-down BACT review shall pay a top-down BACT review fee according to the fee schedule.

B. Payment of Fees

1. At the Time of Application

The base fee shall be paid at the time of application. Review of the application will not commence until the applicable base fee is received.

2. After Application

a. Payment of Fees for Complete Applications

The Agency will invoice the owner, operator, or applicant for all other applicable fees without regard to whether the request(s) associated with this section are approved or denied.

b. Payment of Fees for Incomplete Applications

If an owner, operator, or applicant notifies SRCAA in writing that an incomplete application will not be completed or cancels the application (i.e., the application is neither approved or denied), applicable fees for review performed pursuant to A.2 and A.3 of this section shall be invoiced. If an application remains incomplete for more than 3 months, the owner, operator, or applicant shall be invoiced applicable fees for review performed pursuant to A.2 and A.3 of this section. If review of the application recommences, applicable review fees apply.

C. Incomplete Applications

Applications not accompanied by the base fee will be considered incomplete. In addition, if information requested by the Agency is not provided, the application will be considered incomplete and review of the application will be suspended. Review of the application will commence, or recommence when applicable, when all required fees and information requested by the Agency is received. An application will be cancelled if it remains incomplete for more than 18 months from initial receipt. For review of the cancelled application to resume, the applicant must pay all outstanding invoice fees, if applicable, and resubmit the applicable base fee.

D. Compliance Investigation Fee

Where a compliance investigation is conducted pursuant to Section 5.12 of this Regulation, the compliance investigation fee shall be assessed pursuant to the fee schedule. The fee shall be assessed for each emissions unit, or group of like-kind emissions units, being installed or modified. A group of emissions units shall be considered as like-kind if the same set of emission calculations can be used to characterize emissions from each of the emissions units.

E. Periodic Fee Review

The Board shall periodically review the fee schedule and determine if the total actual fee revenue collected and projected fee revenue to be collected pursuant to this Section is sufficient to fully recover program costs. Any proposed fee revisions shall include opportunity for public review and comment. Accordingly, the Agency shall account for program costs, including employee costs and overhead. If the Board determines that the total project fee revenue is either significantly excessive or deficient for this purpose, then the Board shall amend the fee schedule to more accurately recover program costs. In general, fees will be greater for permits that are typically more complex or take more time to review and process.

SECTION 10.08 MISCELLANEOUS FEES
